Filter by Date Range:

1. Select a start date using the "Start Date" date picker.
2. Select an end date using the "End Date" date picker.
3. Click the "Search" button to filter the queue for records within the selected date range.

Reset Filters:

1. Click the "Reset" button to clear all the filter fields and refresh the queue to show all pending records.

The screenshot displays the 'Completed Queue' interface. At the top, there is a header with a logo on the left, the title 'Completed Queue' in the center, and a share icon on the right. Below the header, there are two date pickers: 'Start Date' with the value '01/05/2024' and 'End Date' with the value '03/06/2024'. Below these are two buttons: 'SEARCH' and 'RESET'. A list of records follows, each with a name, ID, gender, visit date, and a 'Case Paper' button. The records are: Shweta joshi (TJ/2024/00000575, Female, 2024-05-21), Rajesh kumar (TJ/2024/00000572, Male, 2024-05-17), Nayan (TJ/2023/00000037, Male, 2024-05-17), and Akash Bhandri (TJ/2024/00000425, Male, 2024-05-16). At the bottom, there is a navigation bar with three icons: 'Home', 'Pending Queue', and 'Completed Queue' (which is highlighted with a red checkmark).

Name	ID	Gender	Visit Date	Action
Shweta joshi	TJ/2024/00000575	Female	2024-05-21	Case Paper
Rajesh kumar	TJ/2024/00000572	Male	2024-05-17	Case Paper
Nayan	TJ/2023/00000037	Male	2024-05-17	Case Paper
Akash Bhandri	TJ/2024/00000425	Male	2024-05-16	Case Paper

- Once the EMR Is closed Patient Will Move into the Completed Queue, where user can check the closed EMR of the patient.
- User can also view the patient Case Paper.
- Also user click on “BACK” button> it will redirect to completed queue screen
